

Needs Assessment for Microsoft Power Platform

Connect your processes, people, and data to help you do more

Simplify the way you do business and make your favorite tools do more for you using Power Platform to connect and streamline everyday processes and systems. During the engagement, we'll work together to help you find the sticky parts that slow you down and resolve them.

Work with our experts to solve key challenges and unlock efficiency

Through our partnership with Microsoft, we can help you imagine a future state for your business that more efficient and data driven. The Needs Assessment engagement starts with a review of your business followed by a guided discovery and visualization of solutions. It ends with a clear, actionable picture of how we can help you reach your goals.

What will we

See all the ways your organization can improve processes and efficiency without requiring complex solutions.

Who should attend?

Include business decision makers (BDM), executive-level sponsors, managers, and low-code champions or super users.

What happens after?

Get a scope of work for a specific solution or proposal for platform implementation along with success proof points.

Get to know Advantage

Advantage specializes in the delivery of Business IT solutions, boosting growth, improving efficiency and minimizing risk across a range of businesses. We're one of a handful of Gold Microsoft partners who are approved to deliver the Microsoft Power Platform.

Based in the heart of London, we have worked with Microsoft for over 20 years now and are well established in delivering both CRM and ERP as well as the Microsoft Power Platform.

The power of imagination

Imagine the future state of your business and achieve your goals faster with Power Platform solutions that help you:

- Transform everyday work processes
- Increase collaborative brainstorming
- Reduce the risk (and time) of new projects
